FOLLOW-UP DOCTORS CENTER **WELLNESS APPOINTMENTS**

Proper management of hormones can be time challenging. We request that you schedule an appointment so that we may correctly balance the hormone milieu.

Club members may go to all of The DOCTORS Center locations for follow-up lab draws. Please let the receptionist know you're there for that purpose and they will do their best to expedite your request.

Please keep walk-in appointments for acute illnesses such as UTI (urinary tract infection) or Pharyngitis (sore throat) to our Urgent Care facilities. We appreciate your cooperation in this matter.
